

Short Bio:

Mario Estévez, received his veterinary (2001) and PhD (2005) degrees from the University of Extremadura (Spain) and stayed two years (2007-2009) as a Marie Curie postdoctoral researcher at the University of Helsinki (Finland). Dr. Mario Estévez is an internationally recognized expert in oxidation and antioxidation with particular interest on food biochemistry, safety, nutrition and health. He has an H-index of 49 (Scopus), has published more than 170 peer-reviewed journal articles including 7 reviews on protein oxidation through which he has established himself as an expert in the field. He currently serves as member of the Editorial Board of Meat Science (Elsevier) and as Associate Editor of the Journal of Food Science (IFT) and Comprehensive Reviews in Food Science and Food Safety (IFT). He has extensive experience in training international PhD students, postdoctoral researchers and has served as lecturer and keynote speaker in international congresses (ICoMST, IFT, AOCS, EuroFed-Lipids, as examples). In addition, he has experience in acquiring funding from external and competitive sources (EU-commission, European Research Council), in leading international projects (Marie Curie Fellowships in Spain and Finland) and in the creation of strong and prolific scientific collaborations with prestigious Institutions from more than 15 countries.
