

From RomA To the rest of Italy **The unique journey of General Pathology** **across two millennia**

**A scientific event to celebrate
the 80th birthday of Luigi Frati**

Scientific Organization and Coordination:
Gianluca Canettieri
gianluca.canettieri@uniroma1.it

11 aprile 2023

10:00 - 10:25

Saluti istituzionali

Antonella Polimeni, *Rettrice della Sapienza Università di Roma*

Carlo Della Rocca, *Preside della Facoltà di Farmacia e Medicina, Sapienza Università di Roma*

Domenico Alvaro, *Preside della Facoltà di Medicina e Odontoiatria, Sapienza Università di Roma*

Erino Angelo Rendina, *Preside della Facoltà di Medicina e Psicologia, Sapienza Università di Roma*

Eugenio Gaudio, *Presidente della Fondazione Roma Sapienza*

Pasteur Institute Opening Lecture

Chair: Angela Santoni

10:30 - 11:00

Immunity and inflammation: a metanarrative from cancer to Covid-19

Alberto Mantovani

The Academic School

Chairs: Antonio Domenico Procopio, Raffaella Muraro, Marianna Nuti, Stefano Martinotti

11:00 - 11:20

From killer to helper and back again: behind the identity of innate lymphocytes

Giuseppe Sciumè, Angela Santoni

11:20 - 11:40

FGFR isoform switch in human epithelial tumorigenesis

Daniilo Ranieri, Maria Rosaria Torrisi

11:40 - 12:00

New multi targeting approaches in Hh-dependent tumors

Paola Infante, Marella Maroder

12:00 - 12:20

Herpesviruses in human pathology: from oncogenesis to neurodegeneration

Maria Anele Romeo, Alberto Faggioni

12:20 - 12:40

Walking through the non-canonical Notch pathways

Diana Bellavia, Isabella Screpanti

12:40 - 13:00

Fighting cancer by multiple approaches

Monica Benvenuto, Roberto Bei

The IRCCS Neuromed

Chairs: Ferdinando Nicoletti, Giuseppe Lembo

- 14:10 - 14:30 **An unexpected journey on the wave of microglial fractalkine receptor**
Cristina Limatola
- 14:30 - 14:50 **The role of the immune system in mediating brain & heart crosstalk**
Daniela Carnevale

The Scientific Societies: SIPMeT and SIRTEPS

Chairs: Massimiliano Corsi-Romanelli, Francesco Curcio, Edoardo Alesse, Cinzia Marchese

- 15:00 - 15:20 **Targeting epigenome against cancer**
Lucia Altucci
- 15:20 - 15:40 **Microbial pathology: two birds with one stone**
Luigina Romani
- 15:40 - 16:00 **Genetic mutation model - unveiling the pathogenetic mechanisms of thyroid carcinoma**
Giorgio Stassi

Keynote Lecture

Chairs: Antonella Calogero, Antonio Angeloni

- 16:00 - 16:30 **Challenges in precision oncology**
Pier Giuseppe Pelicci
- 16:30 - 17:00 **Closing remarks**
Luigi Frati
